ULTRA PRO

The first and basic model of the Quattro meat grinder series with its special features such as the 10-degree tilt on its front and back side. It is based on the four key pillars, i.e. Design, Reliability, Power and Speed. A huge palette of colors is at your disposal to give color and uniqueness to your meat grinder, as the personality of each person is unique.

Specifications:
Motor: ***3 HP / 4 HP***
Cutting nozzle system: ***Standar 32 / Unger B98 S3 or S5***
External dimensions (mm): ***W355xM560xH520 (+35 lid)***
Pan dimensions (mm): ***W290xM495xH65***

ULTRA PLUS

Based on the classic design of the Quattro series, the Ultra Plus 4 model has a different feature from the rest which is the deeper pan by 4 cm. The total depth of the pan is 10cm. The benefit of this option is the 60% increased meat content waiting to be cut. An ideal meat grinder, mainly for laboratory use. Possibility to be available with no cooling system.

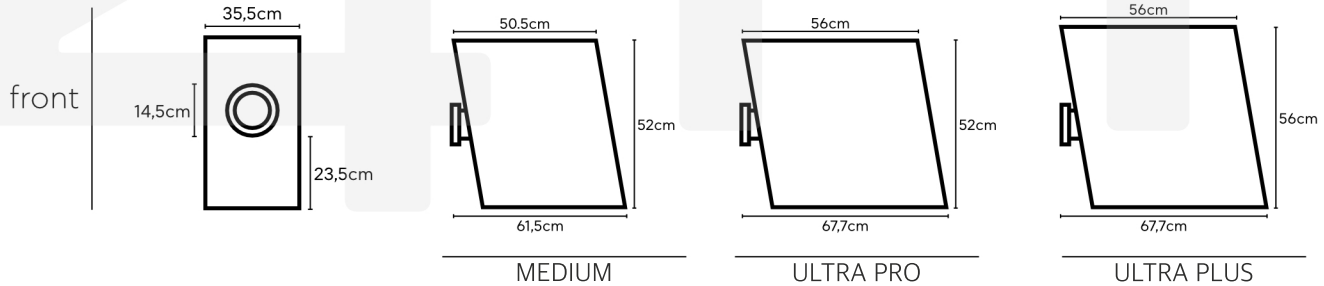

Specifications:
Motor: ***3 HP / 4 HP***
Cutting nozzle system: ***Standar 32 / Unger B98 S3 or S5***
External dimensions (mm): ***W355xM560xH560 (+35 lid)***
Pan dimensions (mm): ***W290xM495xH100***

MEDIUM

At the core of Quattro's philosophy lies a commitment to human-centered design. This is exactly how the Medium model was created. It differs from the main model (the Ultra Pro) in the length of the meat mincer, being 6 cm shorter. In a butcher shop, where even a single centimeter can make a significant difference in the efficient use of space, the Quattro Medium offers a practical solution. The machine's 3hp and 4hp motors, made in Italy ▪ just like its gear reducer ▪ deliver raw power that the user can truly feel during operation. Its speed allows the meat to come out redder than in other machines, enhancing the product's visual appeal and preserving its natural texture.

Specifications:
Motor: ***3 HP / 4 HP***
Cutting nozzle system: ***Standar 32 / Unger B98 S3 or S5***
External dimensions (mm): ***W355xM505xH520 (+35 lid)***
Pan dimensions (mm): ***W280xM430xH65***
